, a company known for its sleeping pads and bags, jumped into the hammock world to help eliminate those cold spots.

After several tests, I can confirm it works great In short: The Hammock V pads are big, comfy, and warm.. With that comes a tradeoff of weight and packability These pads are meant for hammocks, but they do double duty and work great on the ground as well.. ” This is the most common thing I hear from new hammock campers using a sleeping pad as insulation.
