## 54Mbps Wireless ADSL2+ Modem Router TD-W8101G

3-in-1: ADSL2+ modem,  
1-port Ethernet router  
and wireless G access point

Latest ADSL standards for superior  
performance: up to 24Mbps  
downstream and 3.5Mbps upstream

Various QoS policies  
enable various application,  
meeting people's different needs

### Description:

The TP-LINK 54Mbps Wireless ADSL2+ Modem Router TD-W8101G is a 3-in-1 device that combines the function of a high-speed DSL modem, wireless G access point, and 1-port Ethernet router. It supports the latest ADSL2/2+ standards to provide higher performance (up to 24Mbps downstream) and longer reach from your Internet Service Provider's (ISP) Digital Subscriber Line Access Multiplexer (DSLAM).

The TD-W8101G includes a built-in QoS engine that helps prioritize Internet traffic to enable smooth Internet phone calls (VoIP) and lag-free online gaming. To prevent unauthorized wireless

access into your network, the TD-W8101G supports the latest encryption including WEP, WPA-PSK, and WPA2-PSK. In addition, this device includes Dual Firewalls (SPI and NAT) to help protect your network from potential attacks across the Internet.

The TD-W8101G also supports TR-069 which automatically updates the firmware and other settings when they become available from your ISP. Whether it is for a home or for a small office user, the ADSL2/2+ Modem with 54Mbps Wireless Router TD-W8101G is the ideal all-in-one broadband and wireless networking solution.
